REVENUE.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 6th April 1894.

No. 16919-27—R.1699, DATED, BANGALORE, 6TH APRIL 1894.

ORDER.—The occupation of *Gram-tan* (or Village-site) land for purposes other than dwelling is an undoubted abuse. Cases have frequently come to the notice of Government in which villagers have occupied such land on which they would neither build nor allow others to build, and the consequence is that Government are obliged to make rent-free additions to the village sites, notwithstanding that there is enough of village-site available for building purposes. Government therefore resolve to rule that the holders of village-site land unoccupied by houses and backyards attached to them be called upon to pay a fair assessment on the area so occupied. This will not only enable the Government to set apart assessed lands as additions to village sites when required, without needless loss, but also give good title to the occupants of lands and save all disputes as to whether the land is the property of Government or of the occupants. Where the present occupants refuse to pay the assessment charged, the land may be declared to be the property of Government, available to new applicants for building purposes.

L. ANANTASWAMI RAO,
Under-Secretary.

To—The Deputy Commissioners of Districts.
The Superintendent of Revenue Survey in Mysore.

The following letter No. 201, dated the 28th September 1893, from the Deputy Commissioner, Kadur District, to the Chief Secretary to the Dewan of Mysore :—

Adverting to Government Proceedings No. 13551-3—R. F. 184-92, dated 2nd February 1893, declaring the application of Rules for the grant of Loans for the construction of Irrigation Wells, published under Notification No. 183, dated 21st July 1891, to the Kadur Taluk, and the Maidan portion of the Tarikere Taluk, I have the honor to state that applications have been received for loans in the Maidan parts of Chikmagalur Taluk, and to recommend the extension of the Rules to the said part of Chikmagalur Taluk which runs into the Kadur Taluk and is extremely dry. As the Rules would prove a boon to the raiyats, I hope that my proposal would commend itself to the consideration of Government.

No. 17059-62—R.F.287-92, DATED, BANGALORE, 9TH APRIL 1894.

ORDER THEREON.—The Government of His Highness the Maharaja of Mysore are pleased to direct the issue of the following Notification on the subject of the Deputy Commissioner's reference above read :—

NOTIFICATION.

No. 17063—R.F.287-92, DATED, BANGALORE, 9TH APRIL 1894.

Under section 1 of the Special Rules for the grant of Loans for the construction of Irrigation Wells, published under Notification No. 183, dated 21st July 1891, and in continuation of Govt. Notification No. 13554—R. F. 184-92, dated 2nd February 1893, it is hereby declared that the said Rules shall also apply to the Maidan parts of the Chikmagalur Taluk in the Kadur District.

L. ANANTASWAMI RAO,
Under-Secretary.

To—The Deputy Commissioner, Kadur District.
The Comptroller to the Mysore Government.
The Sub-Division Officer on Special Duty in connection with Irrigation Wells in Mysore.
The Compiler, Mysore Gazette, for issue of Notification.

READ :—

Letter No. 700, dated 3rd March 1894, from the Deputy Commissioner, Tumkur District, to the Chief Secretary to the Government of Mysore.

Land bearing Survey No. 103, measuring 2 acres and 16 guntas, and assessed at Rs. 16, situated under the Tumkur Amanikere tank, was held by one Surachar and another Venkataramanachar as a Personal Inam, along with three other fields. This was stated by the Survey Department, in 1881, to be in excess of the original area granted as Inam and treated as Government land. When, upon this, the Inamdars were asked to state whether they were willing to retain the said land in their patta and pay the full assessment or allow the Government to resume it, one of them, namely, Surachar, deposed that it might be resumed to Government, since it had been heavily assessed at Rs. 16. Thereupon, this Survey No. 103 was resumed to Government. It was lying waste up to the year Vyaya, when one Ruddrappa applied for it and got it. It has since been transferred by him by sale to one Chikhonnaiya of Tumkur, in whose patta it now stands. In the revision made, as per recent rules, of the settlement of the excesses discovered in Minor Inams, this Survey No. 103 was confirmed as Inam, and the Inamdars were required to pay only 12 annas as Kasar Jodi for the entire holding. The Inamdars have, therefore, now claimed its restoration. As it is now in the permanent holding of another individual, who is unwilling to part with it, it is not possible to restore it to the Inamdars. There are no Government assessed waste lands under the Tumkur Amanikere tank. The Inamdars have therefore selected a Government unoccupied land bearing Survey No. 14, measuring 8 acres and 30 guntas and assessed at Rs. 67, under the neighbouring tank called Midalada Amanikere in the same Tumkur Taluk, and pray that a piece out of it, bearing an assessment of Rs. 16, may be sub-divided and granted to them as Personal Inam in lieu of Survey No. 103 resumed to Government. As this prayer is very reasonable, I have the honor to submit it for the orders of Government under clause 2 of para 1 of Government Proceedings No. 16246-55—R.F.295-92 of the 24th March 1893, which authorizes the grant of such prayers.

No. 17374-5—R.1741, DATED, BANGALORE, 13TH APRIL 1894.

ORDER THEREON.—Under the circumstances stated by the Deputy Commissioner, the Government are pleased to sanction the grant of a portion of Survey No. 14, bearing an assessment of Rs. 16, under the Midalada Amanikere tank, as Inam, in lieu of No. 103 resumed under the Tumkur Amanikere tank.

Under-Secretary.

The Superintendent of Inam Settlements in Mysore.
The Superintendent of Revenue Survey in Mysore.

READ THE FOLLOWING :—

(1) Docket No. 127, dated 15th March 1894, from the Deputy Commissioner, Hassan District.

Referring to Chief Court's Rule of Practice No. 63, dated 14th December 1885, in Civil Side, anent the destruction of copies applied for but not received by the parties or by their Advocates or Pleaders within 6 months from the date of their preparation, has the honor to request to be instructed whether in the absence of any special rulings in the Revenue Side where the party applies for copies and presents necessary fees but absents himself in receiving the copies, the same procedure as that of the Rule of Practice referred to may be applied.

(2) Rule of Practice No. 63, dated 14th December 1885, issued by the Chief Court of Mysore, Civil Side.

The Chief Court directs that copies of judgments and decrees which have been prepared at the instance of parties, or their Advocates or Pleaders, and which, owing to default on their part, have not been delivered to them, shall be destroyed, if not claimed within six months from the date of their preparation.

No. 17716-23—R.1767, DATED, BANGALORE, 13TH APRIL 1894.

ORDER THEREON.—The Government directed that the procedure sanctioned by the Chief Court be adopted in regard to the copies applied for in the Revenue Department.

2. No copies should be prepared unless all the requisite fees are prepaid.

L. ANANTASWAMI RAO,
Under-Secretary.

To—The Deputy Commissioners of Districts.

The following Demand, Collection and Balance Statements of the several districts of the Province for seven months ending 31st January 1894 :—

No. 4. Land Revenue.
„ 5. Casual Land Revenue.
„ 2. Sayer Collections
„ 8. Forest, Assessed Taxes, &c
„ 9. Miscellaneous Collections.

No. 17173-80—R.F.56-93, DATED, BANGALORE, 10TH APRIL 1894.

ORDER THEREON.—The accompanying statements (marked 1, 2, 3, 4, 5 and 6) show the Demand, Collection and Balance under the heads (1) Land Revenue, (2) Forest, (3) Sayer, (4) Salt, (5) Mohatarfa, and (6) Miscellaneous for the seven months ending 31st January 1894 as compared with the corresponding period of last year.

2. *Land Revenue including Casual Land Revenue.*—The arrear balance in Mysore, Shimoga, Kolar and Hassan is heavy. It should be collected as soon as possible. The collections under this head as exhibited in the Demand, Collection and Balance Statements submitted by the Deputy Commissioners do not tally with those reported by the Comptroller in the Ten day Land Revenue Collection Statements. The difference between the two statements, as shown in the margin, of Rs. 4,858 up to the end of January 1894, and of Rs. 614 for January alone, requires explanation.

Up to end of January 1894.

3. *Forest.*—The decrease of Rs. 25,097, 5,991, 5,386 and 4,082 respectively under Demand in the Hassan, Kadur, Chitaldroog and Kolar Districts requires explanation. The current balance under this head is large in the Bangalore, Mysore, Hassan, Shimoga and Kadur Districts. The cause should be explained.

4. *Sayer and Salt.*—No remarks.

5. *Mohatarfa.*—Calls for no special remark, except that the arrears in the Kolar and Mysore Districts respectively are still large.

6. *Miscellaneous.*—The arrears in the Mysore and Shimoga Districts require the early attention of the Deputy Commissioners.

Correspondence ending with letter No. 61, dated 26th July 1893, from the Superintendent of Revenue Survey in Mysore, in regard to the valuation survey of the Waddin Timmalapur village in the Huliyar Sub-Taluk, Tumkur District, and to the restoration by Government of the (Timmalapur) village tank at a cost of Rs. 14,385.

No. 1895-5—R. F. 229-92, DATED, BANGALORE, 14TH APRIL 1894.

ORDER THEREON.—The Timmalapur tank is a large straggling reservoir in the Jodi Timmalapur village, and its restoration was effected by Government in 1887-88 at a cost of Rs 14,384 -14—6. The Jodidars of Timmalapur when called upon to pay this amount tried to shirk their obligation by various excuses and finally offered to pay half the cost of the restoration (amounting to Rs. 7,192—7—3), which sum again they proposed should be advanced to them by Government as a loan repayable with a light interest in the course of 10 years. The Dewan inspected the tank in the course of his tour in 1891-92 and recorded the following observations :—

"Complete exemption from payment of this amount is out of the question. "But the Jodidars are entitled to some consideration. An equitable way of "dealing with the case would be for Government to bear a portion of the cost "proportionate to the Jodi, chargeable on the wet and garden lands. The "Survey Superintendent will be requested to make a survey of the lands under "the tank and to report upon their survey valuation and the amount of the "present Jodi of the entire village which is fairly apportionable to such lands."

2. In accordance with the above observations, a survey of the village was made at a cost of Rs. 1,339—0—5 ; and the information embodied in the Akarband and map of the village furnished by the Survey Superintendent gives the following results :—

		Rs.	A.	P.
1.	Beriz of the village	3,849	4	0
2.	Assessment of lands within the tank atchkat ..	2,211	8	0
3.	Portion of Jodi debitable to the lands under the tank	816	0	0
4.	Inamdars' share of the revenue of lands under the tank	1,395	8	0
		A.	G.	
5.	Area of lands under the tank	526	35	
6.	Area of the tank	458	28	

3. Applying to these figures the principle laid down in the observations above quoted, the share of Government of the cost of restoration would amount to Rs. 5,309, the balance of Rs. 9,076 being recoverable from the Jodidars. Further, the cost of the valuation survey would have to be apportioned in the same proportion between the Government and the Jodidars. Considering the security ensured to an annual revenue of Rs. 1,400 by the restoration of the tank, the above terms would be liberal in themselves; but having regard to the circumstances of the Inamdars and the great age of the Inam itself, Government have resolved to accord to the Inamdars exceptionally liberal treatment, which should under no circumstances be regarded as a precedent in future cases of restoration by Government of Inam tanks.

4. Government are accordingly pleased to direct—

(1) that the proportionate cost of the survey be remitted in case the Jodidars are prepared to introduce the Survey Settlement into the village,

(2) that the sum of Rs. 9,076 be recovered from the Jodidars as their share of the cost of the restoration,

and (3) that in case, however, of their inability to pay a lump sum of Rs. 9,076, they be given the option, to be exercised within the 30th June 1894, of having it commuted into—

(*a*) a permanent annual Jodi of Rs. 363,

or (*b*) a water rate of annas 12 an acre on the lands under the tank.

526 acres—35 guntas.

5. This decision, it must be clearly understood, does not in any way reduce the Inamdars' liability to maintain the tank in very good order in the future and to restore it in case restoration becomes necessary owing to unforeseen accident.

6. It is now nearly six years since the tank was restored, and further delay in the disposal of this account is extremely undesirable. The Deputy Commissioner is requested to take early steps to explain to the Inamdars and execute in due course the orders as above and to submit a report of the action taken before 30th June 1894.

Correspondence ending with docket No. 821, dated the 23rd February 1893, from the Deputy Commissioner, Bangalore District, regarding the Jodi village of Nagasettihalli in the Magadi Taluk, attached to the Parakalaswami Matt.

No. 17532-4—R. F. 144-92, DATED, BANGALORE, 16TH APRIL 1894.

ORDER THEREON.—The facts of the case briefly are as follows :—

2. In 1815, the village of Nagasettihalli was granted to the Parakalaswami Matt as a Devadaya grant by His Highness the late Maharaja of Mysore on a yearly Jodi of 60 pagodas. In 1821, the then Manager of the Matt alienated the village for the personal benefit of some Brahmins and thus diverted the original object of the grant. During the Inam Settlement, the alienees were asked to restore the village to the Matt. Vrittidars holding $\frac{3}{8}$th share of the village consented to the restoration, while others refused on the ground that they had been enjoying it for more than 50 years. The Inam Superintendent confirmed the village to the Matt in 1880 on a Jodi of Rs. 175-0-0 to be paid to Government, and directed under Clause A, Rule II of the late Chief Commissioner's Notification No. 266, dated 17th November 1877, that in the event of the alienees not restoring the village to the Matt within one month from date of service of notice, they should pay to the Matt one-half the difference between the Jodi and the Survey assessment. The alienees have failed to comply with this order and the Government accordingly direct the confirmation of the village to them on the present Jodi with the addition to it of one-half of the Survey valuation, minus that Jodi, as per following particulars, namely :—

	Rs. A. P.
Present Jodi	175 0 0
One-half the Survey valuation, minus present Jodi, that is, Rs. $\frac{288-175}{2} = \frac{113}{2} = 56\frac{1}{2}$.	56 8 0
Total, being revised Jodi Rs.	231 8 0

The Inam Superintendent will be requested to verify the foregoing figures and to confirm the village to the alienees on an enhanced Jodi calculated as above.

3. The additional Jodi thus imposed is payable direct to the Matt by the alienees, and the Deputy Commissioner is authorized to recover the same for the Matt as a Revenue Demand under the Land Revenue Code on the application of the Matt.

The following letter, No. 2355, dated 13th October 1893, from the Comptroller to the Mysore Government to the Chief Secretary to the Dewan of Mysore.

I have the honor to enclose a statement showing the advances drawn from the Treasury on account of Famine Relief Works during 1891-92 and 1892-93, the amounts adjusted by cash and by bills and the balances outstanding on 30th June 1893. It will be seen from the statement that large sums have been drawn from the Treasury by the Deputy Commissioners of Bangalore and Kolar Districts on account of village tank works, for which no completion bills have as yet been submitted. The Deputy Commissioners of the several Districts may be directed to adjust the balances outstanding against them without further delay.

Letter No. 227, dated 15th December 1893, from Mr. R. Vijaindra Rao on Special duty, Submitting the Agricultural and Statistical Returns for the year 1891-92.

No. 17995-8003—R. 1795, DATED, BANGALORE, 23RD APRIL 1894.

ORDER THEREON.—In submitting the Returns, Mr. Vijaindra Rao raises the following points and requests orders :—

1. In Statement No. 1 showing the area cultivated and uncultivated, the areas entered in columns 2—5 are shown in square miles, and those shown in columns 6—8 in acres. Mr. Vijaindra Rao proposes to show the areas in acres in *all* the columns, so that the figures in the several columns may be readily compared with each other. Government have no objection to this being done. The acres can be converted into square miles either in the Districts or the Government Office.

2. Mr. Vijaindra Rao proposes to recast the whole form of No. 1 (area cultivated and uncultivated). This is not necessary, and the form proposed by him does not also meet all the requirements. The best way would be to leave the form unaltered, and to obtain such subsidiary statements from the Districts, as are necessary for the elucidation of the figures contained in it (the main statement). If the Director obtains from the Districts detailed statements showing (1) the figures of the last year, (2) additions made to them during the year under review and their causes, (3) deductions made and their causes, and (4) the balance under each of the main headings noted in the margin, they will afford all the check needed. The Director is requested to do so in future.

(1) Cultivated area.
(2) Culturable waste.
(3) Unculturable land.

3. Government have no objection to the Director obtaining Rain Registers in the form proposed by him, but they do not think it necessary to obtain statistics from Police Stations. It will be enough if figures are obtained from the Head-quarters of each Taluk and carefully tabulated. Provision should be made in the new form for exhibiting according to the instructions given in para 9 *infra* the quantities of *clouds* which have to be shown in the main statement.

4. Mr. Vijaindra Rao considers that the crop statement should be prepared three times a year, first after the sowing is over, second when the crop matures, and third when the harvest is gathered. This is unnecessary. The figures required may be easily taken from the village form No. 7. More detailed particulars of crops than are given in the existing Form are not required, and any attempt to separate the areas of cocoanuts and arecanuts is not likely to prove successful, as there are no returns from which the figures can be readily taken.

5. With reference to the enquiry in para 9 of the letter read above, Government observe that "Rent" means the sum which the Landlord would get if he let out the land to a tenant and not the assessment he (the Landlord) pays to Government. Rent of course includes the assessment, and this must be explained to the District authorities.

6. Mr. Vijaindra Rao states that accurate figures under *Produce* cannot be given unless series of tests are taken over the different parts of the Province of good, bad and indifferent years and on soils of various productive power. In saying this, Mr. Vijaindra Rao has misunderstood the object of the statements, which is intended to show not the standard produce of each crop but the estimated out-turn during the year for which the statement is prepared. In future the produce should be given in annas and not in lbs.

7. Deputy Commissioners will be called upon to report how the Price returns are now prepared and in what manner local measures are converted into seers of 80 tolas and whether due allowance is made for "heaping" and "half heaping" in the use of local measures.

8. Now coming to the statistics of 1891-92 received with the letter read above, Government note the following discrepancies and inconsistent entries, which the Director is requested to explain and submit revised returns where it may be necessary to do so.

Statement showing the area cultivated and uncultivated:—

The total area given in this statement differs from that recorded in that of 1890-91, as shown below:—

	1890-91.		1891-92.
	Square miles.	*Acres.*	
Bangalore	2,546	374	2,565

Kadur	2,634	367	2,768
Chitaldroog	2,388	...	3,994
Total.....	25,631	...	26,659

The difference in Mysore is explained to be due to the adoption of the correct area of Gundlupet Taluk, as per Survey Settlement, and that in Chitaldroog to the correction of errors in the accounts of the preceding year. Explanation should be furnished for the difference in the other Districts. The Superintendent of Revenue Survey is requested to state whether he cannot give the correct area of each District. The figures given in column 8 of the statement should correspond with those given in column 3, but they do not in the Districts of Bangalore and Tumkur, as shown in the margin. The differences should be explained. The figures inserted in column 6 of the statement should be the same as those given in column 8 of the previous year's statement, but they are not so in the District of Kolar. The differences should be explained. The figures given in the several columns do not correspond with those given in the Achkat and Nagadiyat Returns, as shown below:—

Most of the above differences are apparently due to the omission of fractions in entering the area in square miles, but larger differences require explanations. In future the Director is requested to show the details of this statement separately for Sarkar and Inam lands to admit of the figures being checked. It must be remembered that the area *cultivated* should embrace not only lands actually cropped but the whole land occupied. All Minor Inams may be considered as occupied. For Inam villages, if the area of waste cannot be ascertained, the whole area may be entered as occupied.

9. Government regret to observe that on account of the disordered condition of thermometers and sheds, no reading could be recorded in Kolar and Tumkur, as in previous year. The Deputy Commissioners of these Districts are requested to do the needful for registering the temperature of their Districts.

Clouds.—The figures entered against Bangalore and Hassan in columns 18, 19 and 20 of No. 2 are unintelligible, and it is not explained why the columns have been left blank against the other Districts. What has to be shown in these columns is the average daily quantity of clouds during each of the period mentioned, taking the quantity as 10, if the *whole* of the sky is covered with clouds. For instance, if there were 4 cloudy days within a period of 3 months, the quantity of clouds in each of these 4 days being 10, 9, 8 and 7, the total being 34, the latter figure divided by 90 days represents the average daily quantity of clouds within the period.

10. *Crop statement.*—The figures given in this statement do not tally with those given in Statement A III of the Agricultural Returns submitted by the Deputy Commissioners, as shown below. The differences should be explained.

11. *Agricultural stock.*—The figures given in this statement also differ from those given in Agricultural Statistics No. IV submitted by the Deputy Commissioners, as shown below. The differences should be explained.

	No. IV.	Present Statement.
	Cows and Bullocks.	
Tumkur	3,47,181	3,83,426
Mysore	5,24,166	6,02,264

Hassan	58,132	61,988
Shimoga	97,322	1,22,554
Kadur	40,826	53,030

12. *Statement of Rents and Produce.*—The figures given under Rents in this statement are all apparently wrong. As already remarked what is required to be shown in this statement is the rental which the Landlord would get if he let out the land to his tenant, and not the assessment which the Landlord has to pay to Government. But apparently the figures given represent the assessment payable to Government, which does not depend upon the crop. The statement has to be revised. The figures given under Produce seem to be equally unreliable. The average produce of rice per acre in Bangalore is given as 122 lbs against 1,038 lbs in Kolar and 1,525 lbs in Mysore. The produce of wheat is given 36 lbs in Mysore against 760 lbs in Tumkur, and the yield of coffee in Shimoga is given as 21 lbs against 125 lbs in Kadur. These differences show that the statements have not been prepared with much care. The Director of Statistics is requested to get the statement revised as carefully as possible.

13. *Prices.*—The price of cotton per maund of 80 lbs is given in Kadur as 6—4—0, while in all the other Districts it varies from Rs. 15 to Rs. 22. In Tumkur the price of sugar is given as 5—5—0, while in all other Districts, it varies from Rs. 11 to 16. In Kadur, the price of tobacco is given as 7—5—0, while in Hassan it is Rs. 15. These differences throw much doubt on the accuracy of the figures. The Director is requested to ascertain whether the figures are correct.

13. *Manufactures.*—The marginal figures show large variation in the yield whatever it might be, whether quantities or value, and it is hardly to be credited that the annual out-turn in Shimoga of a cotton loom could only be Rs. 5, while it is 316 in Chitaldroog, and that the out-turn of woollen loom in Mysore could be 24, while in Shimoga it is only 33. The figures require greater scrutiny. It should be stated whether the figures represent the value in Rs. or quantity in lbs or maunds.

READ AGAIN:—
Government Proceedings Camp No. 317-21, dated 6th June 1893.
READ:—
Correspondence ending with letter No. 894, dated 8th February 1894, from the Deputy Commissioner, Mysore District.

No. 18025-7—R. F. 165-93, DATED, BANGALORE, 23RD APRIL, 1894.

ORDER THEREON.—In the Proceedings read above, Government sanctioned the grant to Sannu Rao and other members of the late Kille Cutcherry Bakshi

Thippaiya's family, of loans up to a limit of Rs. 30,000 repayable with interest at 5 per cent per annum on the mortgage of their ancestral Jahgirs to enable them to redeem the properties from existing encumbrances, and the Deputy Commissioner of Mysore was instructed to take the necessary action in the matter and to see that the advance in no case exceeded 12 years' income from the properties offered in mortgage.

2. The Deputy Commissioner submits a revised genealogical tree of the family (marked $B^{(1)}$ and attached to these Proceedings) and reports that Srinivasa Rao and his brother Venkatesaiya of the 1st branch having separately applied for advance of their portion of the loan on the mortgage of the properties belonging to their share and separately enjoyed by them, a loan of Rs. 9,336 was advanced to them, and that the existing encumbrances on the properties of the other two branches of the family amount to Rs. 20,178 as detailed below :—

I. Rs. 11,745-3-6.—Due to Karighatta Parpattegar Venkatachar on account of principal and interest on the hypothecation of the following :—

(1) One-third of Sarvamanyam Tirunelli village in the Hunsur Taluk.
(2) The whole of Sarvamanya Inam Hodeyanur village in the Arkalgud Taluk.
(3) One-third of Inam garden below Karanji tank in Mysore.
(4) Inam wet lands under Krishnarajkatte Nala in the Arkalgud Taluk.
(5) A storied house in Krishnaraj Mohalla in the Mysore City.

II. Rs. 1,682-12-6.—Amount of principal and expense of cultivation claimed by one Ladar Annappa of Mysore in respect of the one-third share of the Inam garden (item No. 3 of the properties hypothecated to Karighatta Venkatachar) below the Karanji tank in Mysore, which has been re-mortgaged to him with possession.

III. Rs. 5,000-0-0.—Principal due to Kolar District Revenue Sheristadar Srinivasa Rao on the mortgage with possession for 12 years of one-third share of Tirunelli village belonging to the descendants of Nos. 4 and 5 of the 2nd branch according to the revised genealogical tree.

IV. Rs. 1,750-0-0.—Amount of principal and interest due to Hundi Krishnamachar on the hypothecation of the Vritti lands in Konenur village, Chamrajnagar Taluk.

Total Rs. 20,178-0-0.

3. It is reported that Sannu Rao now requests that as 12 times the net income of the properties to be mortgaged is not sufficient to redeem them fully, a loan equal to 15 times the net income of the properties, as shown in the margin, may be granted, the balance, *viz.*, Rs. 1,653, of the debt remaining over the 15 years' income being met from the Sandalwood revenue of which Rs. 2,764-6-3 is stated to be at Sannu Rao's credit.

	Rs.
Income from the Hodeyanur village in round numbers	270
Income from the two-third share of Tirunelli village	760
Income from the vritti lands in Chamrajnagar	125
Income from the one-third share of the Karanji garden	80
	1,235

Rs. $1,235 \times 15 = 18,525$

4. The Deputy Commissioner recommends the grant of the loan as now applied for, as the amount to be advanced and the sum of Rs. 9,336 advanced to Srinivasa Rao and another of the 1st branch referred to above do not exceed the limit of Rs. 30,000 sanctioned in the Proceedings of the 6th June 1893.

5. Under the foregoing circumstances, the Deputy Commissioner's proposals are sanctioned as a special case, on the understanding that he will take special steps to reduce the loan in question to an amount which will be repaid in 12 years, from the sources of Sandal and Toddy. The Deputy Commissioner can pay the whole amount required in the first instance.

2. *Expenditure.—III. Collection.*— As regards the sum of Rs. 100 proposed to be entered on account of commission of 2 per cent payable to the Shanbhog employed for collecting House and Mohatarfa taxes in accordance with Proceedings dated 31st October 1892, the Deputy Commissioner will report what remuneration the Shanbhog now gets in the shape of Inam land or any money payment, and whether any Potgi has been fixed, and if so, whether or not the Mohatarfa revenue has been taken into account.

Government Proceedings dated 20th October 1893. No.	Deputy Commissioner's letter.
Para 8.	5.

3. *Cattle-pound.*—No repairs to the cattle-pound being reported to be necessary, the sum of Rs. 50 provided therefor will, as requested, be transferred to feeding charges of impounded cattle, corresponding estimate being entered on the side of receipt, for fees recoverable for the feeding charges.

Government Proceedings dated 20th October 1893. No.	Deputy Commissioner's letter.
Para 14.	6.

4. *Pension and Gratuity charges.*—The sum of Rs. 50 entered will be struck out, as there is no likelihood of any necessity arising for such charges being incurred during 1893-94.

Government Proceedings, No.	Deputy Commissioner's letter.
Para 15.	7.

5. *Park necessaries.*—The provision of Rs. 100 entered in the Budget is explained to be necessary for cutting and removing the hedges, making pathways, purchasing tools and plants, &c., and is sanctioned.

Government Proceedings, No.	Deputy Commissioner's letter.
Para 16.	8.

6. *Cost of Mango plantation.*—The Deputy Commissioner's proposal to transfer the provision of Rs. 1,000 made for Mango plantation to meet the cost of an estimate for filling in the Northern fort trench is approved.

7. The other paras of the Deputy Commissioner's letter which relate to the Budget of Hassan Town only call for no remark. Information called for in regard to the other Municipalities has not been supplied, and it should be submitted early.

SAKLESPUR.

8. As the Municipal English School has been ordered to be transferred to the Education Department with effect from 1st July 1894, the provision of Rs. 1,000 made towards the cost of a new School building will be disallowed.

ARSIKERE.

9. *II. Tax on Houses and VII. Mohatarfa.*—The estimates under these heads apparently include sums payable on buildings of the Southern Mahratta Railway, which have been exempted from taxation under the orders of Government. *Vide* Proceedings dated 15th March 1894, No. 15275—L. F. 210-93. The Deputy Commissioner is requested to state the amounts by which the estimate under each sub-head has to be reduced with reference to the above orders.

10. The estimated receipts and expenditure of the several Municipalities of the Hassan District as above modified will stand as shown in the following abstract statement :—

No.	Municipalities.	Actual balance on 1st July 1893.	Estimated receipt for 1893-94.	Total, including balance.	Estimated expenditure for 1893-94.	Estimated balance on 30th June 1894.

Letter dated 7th April 1894, No. 641, from the President of the Mysore City Municipality.

With reference to your docket No. 16419-20, dated 30th March last, I have the honor to inform you that the Commissioners of the City Municipal Board, named in the margin, were elected on the dates set opposite to their names, under the election Rules of the 28th November 1891, and most of them attended the first meeting after their election on the 27th September 1892.

9.	Nazarbad ...	,, W. P. Narayanasami Mudaliar..	3rd do
10.	Chamraj ...	,, M. Venkata Krishnaiya ...	4th do

2. Mr. Shama Rao, before taking up his duties in the Board, vacated the office on his transfer to Bangalore, and Mr. Fathe Khan was appointed in his stead under Section 15 of the said Rules.

3. On the 27th February 1894, Mr. N. Subba Rao died, and Mr. Rahimatulla Sait has been recommended to be appointed as Commissioner in his place.

4. Para 8 of the Rules directs that the general election of the Municipal Commissioners should take place in the month of March once in every two years. But the election actually took place, not in March, but at the end of August 1892 owing to various causes, and under Rule 7 an elected Commissioner is declared entitled to hold office for two years from the date of election and till a successor is declared duly elected in stead. The latter clause should, I think, be taken to extend the period of two years by the time which may be required for the election of the successor and not in limitation of two years. Under the present circumstances, therefore, the Members to be elected for the ensuing two years cannot, under the rules, be able to sit on the Board till the others vacate at the end of August. I beg that I may be favored with the opinion of Government on this question and if my interpretation should be correct, when the election may be held.

5. I have, however, arranged for the publication of the list of voters and of persons qualified to be elected as Commissioners in the Mysore Gazette, about the 15th instant, so as to enable us to hold the elections in the month of June next and the elected Members to enter upon their duties in the beginning of the official year, if the Government should be of opinion that the two years referred to in Rule 7 should be held to mean two official years, and that the present Members should vacate their seats by the end of this official year.

No. 18105-6—L. F. 40-92, DATED, BANGALORE, 26TH APRIL 1894.

ORDER THEREON.—The President's interpretation of the rules regarding the election of Municipal Commissioners is correct. The next election may be held either in August next, or March 1895, as may be most convenient.

Letter from the Deputy Commissioner of Mysore, dated 8th September 1893, No. 273.

With reference to orders of Government in para 9 of Proceedings, No. 17612-6—L. F. 30-92 dated 21th April 1893, I beg to submit that the Local Fund Board of the Mysore District are strongly in favor of establishing tolls on all the roads near the frontiers of this District.

2. The receipts from Local Funds for the District proper amount to about Rs. 67,686 per annum. Out of this, Rs. 21,229 are spent on annual repairs and maintenance of roads, and Rs. 26,642 for original works on roads and communications The remainder is scarcely sufficient for other demands, such as Dispensaries, Travellers' Bungalows, Sanitation, &c. The requirements under these heads are rapidly multiplying, but have almost to be neglected from want of funds.

3. Since the Local Cess was organized in 1871, fresh roads have been opened, the wear and tear on old roads have become greater, owing to increased traffic, and the cost of construction and repair has largely risen as labor has become dearer. Thus the income from Local Cess, which is not very elastic, is found inadequate to meet the rising demands thereon.

4. I beg therefore to urge that though according to para 1 of Notification No. 105 of 1871 the construction and repair of roads has to be met from the receipt of the Local Fund cess, there is nothing unlawful or improper in trying to augment the income by the imposition of toll. Besides, as it is now proposed to establish the tolls only at the frontiers, on carts going to or returning from British Territory, the levy of such toll does not affect traffic within the Province and cannot be considered as imposing an additional burden upon agricultural industry in Mysore. Agriculturists in the immediate vicinity of the stations where tolls are established may also be furnished with licenses for plying their carts locally free from the tax.

5. Tolls are provided for in the Madras Local Fund Act and are recognized as a source of income in all Local Fund Circles in the Presidency. They are established on all principal roads, care being taken so as not to clash with Municipal tolls, or to harass traffic too much by having them at too short intervals along the roads, the minimum distance being fixed at 20 miles. The income amounts to as much as 30 to 40 per cent of the total expenditure on roads and construction and maintenance of communications in each District. It is true that the policy of the Madras Government is to transfer gradually even the main trunk road hitherto maintained at the cost of Provincial Funds to the District Boards, but this does not affect the general question of the propriety of levying the tolls. This being the case, the establishment of a single toll on each frontier road cannot be complained of as a hardship. It may also be urged that the tax, though levied from the cartmen, will be ultimately charged to the hirers, and that a lot of traffic of Coorg, Manantoddy, Wynaad, and Nilgiris, in timber and other merchandise wear out our roads without paying any return in the shape of Local Cess.

6. I beg, therefore, that any proposal may be entertained favorably, and steps might be taken for the introduction of the tolls at an early date. The tolls may be fixed at the same * rates at which they are levied on the frontiers of the different roads by the Coorg and the Madras Governments.

* Memo appended.

Letter from the Deputy Commissioner of Mysore, dated 5th February 1894, No. 870.

With reference to Government Proceedings, No. 8384—L. F. 143-92, dated 23rd November 1893, enquiring what amount of revenue might be expected by the establishment of tolls on the three inter-provincial roads, referred to in this Office letter, No. 273, dated 8th September 1893, I have the honor to state that the probable realizations from the tolls on our frontiers are reported to be as noted below:—

Serial No.	Roads.	Frontier Stations.	Annual revenue.	Remarks.
1	Madras-Cannanore road	Anechaukur.	400	Stated by the Executive Engineer, Mysore, as the approximate average of 2 consecutive years.
2	Mangalore road *viâ* Mercara	Kogga on their side of Frazerpet.	3,350	
3	Seringapatam Branch road	Muttur.	6,150	
4	Bangalore-Nilgiri road	Kekkanaha'la.	3,300	Reported by amildars.
5	Mysore-Manantoddy road	Bavali.	1,872	
6	Nanjangud-Hosur road	Attikalpur.	1,800	
7	Gundlupet-Sultan Battery road	Mule Hole.	1,080	

We may safely calculate on realizing about Rs. 20,000, Tolls be established on all these roads at the entrance to our territories.

I beg that early orders may be passed.

Letter from the Deputy Commissioner of Mysore, dated 26th February 1894, No. 955.

In continuation of this Office No. 870 of the 5th instant, I have the honor to state that the probable realization from the tolls on our frontiers on the marginally noted roads are reported by the Amildar of Hunsur to be as noted against them, and to request the favor of obtaining early orders of Government on the subject.

GENERAL.

Proceedings of the Government of His Highness the Maharaja of Mysore, (General),—dated 6th April 1894.

No. 16928-36—G. 3368, DATED, BANGALORE, 6TH APRIL, 1894.

ORDER.—Deputy Commissioners have repeatedly brought to the notice of Government the inadequacy of the existing District and Taluk Establishments, and the Government are satisfied that the establishments require to be strengthened, as much additional work has been thrown on them since their formation, in consequence of the extension of cultivation and increase in the number of land-holders, the introduction of the Land Revenue Code and the rules framed thereunder, the sub-division of Abkari Farms, creation of new Municipalities, execution of a larger number of works by Revenue agency from District Funds, the introduction of the system of advances for wells, and other administrative changes involving much statistical work. But the Government are considering whether much of the work now done by the Taluk Establishments cannot be reduced by the introduction of a uniform set of Registers and Accounts and a Taluk Manual defining the duties of each official. As it will, however, be sometime before the matter can be thoroughly investigated, and a decision arrived at, Government resolve to authorize Deputy Commissioners to entertain temporary establishments in such places and offices as they think necessary at an annual cost not exceeding the sums noted below against each District. They should report at once the hands entertained under this order, and also submit a special report at the end of one year, how far their employment has relieved the Taluk and District Establishments of the pressure of work and facilitated its despatch.

No. 17449—G. F. 453-92, DATED, BANGALORE, 16TH APRIL 1894.

ORDER.—Under the authority of the Government of India Resolution No. 661 P, dated Calcutta, 6th February 1894, the Government of His Highness the Maharaja are pleased to sanction for the marginally* named seven lent British Officers, Exchange Compensation allowances under the terms of the Government of India Resolution of the 18th August 1893. The allowance should be calculated in the case of each Officer on his "assumed pay" as defined in Article 808 of the British Civil Service Regulations.

*1. Lieutenant Col. D. McNeil Campbell, R. E., Chief Engineer and Secretary, Public Works Department.

2. Mr. H. Groves, Secretary to the Government of Mysore for Railways.

3. Mr. W. McHutchin, Assistant to the Chief Engineer and Assistant Secretary, Public Works Department.

4. Lieutenant Colonel A. H. Macintire, Military Secretary to His Highness the Maharaja of Mysore and *Ex-Officio* Officer in charge, Amrut Mahal Department.

5. Brigade Surgeon Lieutenant Colonel T. J. McGann, Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

6. Surgeon Major P. H. Benson, Chemical Examiner and Civil Surgeon, Mysore.

7. Mr. J. J. Whitely, Tutor to His Highness the 1st Prince of Mysore.

2. The Comptroller is requested to make a careful calculation of the amount due to each Officer and pay the same to him with arrears from the date on which Exchange Compensation came into force in British India.

3. The Comptroller will also send to this Office for information a Memo of the calculation made and amount paid in each case under these orders.

Letter No. 2263—223, dated 8th January 1894, from the Inspector General of Police, submitting for orders a memorial, dated 20th December 1893, from Mr. H. Ramanujaiengar, Superintendent of Police, Kolar District, regarding his place in the Gradation List of Assistant Commissioners.

2. Letter No. 2825—663, dated 19th February 1894, from the Deputy Commissioner, Kolar District, on the same subject.

No. 17704-15—G. 3887, DATED, BANGALORE, 18TH APRIL 1894.

ORDER THEREON.—The question raised has reference to the relative position of Mr. H. Ramanujaiengar (Police Superintendent on Rs. 350) and of Mr. Abdul Karim, Mr. D. Shama Rao and Mr. K. Ramaswamaiengar (Survey Assistant

Superintendents on Rs. 300) in the list of Assistant Commissioners of the 3rd Class. Mr. H. Ramanujaiengar, when in the Survey Department, was senior to both Mr. D. Shama Rao and Mr. K. Ramaswamaiengar, and he has been Police Superintendent, 2nd Class, on Rs. 350 since 1st November 1891. These facts entitle him to special consideration. Moreover, officers employed both in the Police and in the Survey, when they are entitled to a place in the list of Assistant Commissioners, should have a definite position assigned to them in that list. This, in the case of Assistant Superintendents of Revenue Survey, has been laid down by the orders of 13th January 1889, but in the case of Police Assistant Superintendents and Superintendents who are Assistant Commissioners, some similar arrangement remains to be devised. This question, the Government reserve for future consideration; but in the meantime, the orders of 13th June 1889 giving a place in the 3rd Class of Assistant Commissioners to 1st Grade Assistant Survey Superintendents, will be held in abeyance as regards officers attaining to the last named grade hereafter.

2. The Superintendent of Revenue Survey will be requested to report if the number of his Assistants can be distributed among the different grades, making promotion from one grade to another to go by vacancy instead of by length of service in each grade, as it is in the Police. If this could be done, then it would be easier to regulate the relative position of officers taken from either Department into the Revenue Department as Assistant Commissioners.

3. Pending the disposal of this question, the orders of Government, dated 4th December 1893, will be modified by regarding Mr. Abdul Karim, Mr. Shama Rao and Mr. K. Ramaswamaiengar as outside the list of permanent Assistant Commissioners of the 3rd Class. The list given in para 18 of these orders will be altered, and Mr. K. Ramaswamaiengar will be shown in that list as having temporary rank in the terms of para 14 and the other two officers will be borne on the lists of the Forest and Survey Departments in which they are respectively employed, their future position in the list of Assistant Commissioners being reserved for settlement in accordance with the orders of 13th June 1889 when they come to be actually employed in the Revenue Department.

Government Proceedings Nos. 4204—G. 1023 and 6215-23—G. 1412, dated 2nd and 29th September 1893, on the subject of extending Viticulture in the Mysore State.

READ ALSO :—

The following letter No. 1884—144, dated 17th December 1893, from the Inspector General of Forests and Plantations in Mysore, to the Chief Secretary to the Dewan of Mysore.

With reference to Government Proceedings No. 4204—G. 1028, dated 2nd September 1893, calling for my views regarding the extension of Viticulture in the Province, I have the honor to state that I am of opinion that the climatic conditions generally of Mysore are not altogether favorable to the growth of the grape vine or the quality of its fruit. Even as regards the grapes grown in the Palace Gardens at Bangalore under such favorable auspices as able superintendence, rich soil and abundance of water, the fruit is inferior in flavor to that of Aurangabad and other places in the Hyderabad, Deccan.

2. Consignments of grapes are regularly imported into Bangalore from parts of the Salem District, and some of the varieties thus imported, if not superior, are sweeter than the local grape, the cultivation of which in my opinion has decreased of late years. This falling off is not, I think, owing to importation of grapes from other places, but because the culture is not so profitable as that of certain other fruit, notably strawberries and apples. In small plots of land with favorable conditions as regards shelter from wind and suitable water-supply, the Bangalore native gardener grows strawberries and apples and not grapes, as the latter only realize poor prices, whilst strawberries in addition to a good local demand are largely exported and at considerable profit. As for apples they sell at almost fancy prices, rupees 6 a dozen or 8 annas each being not an uncommon price for good varieties.

3. At one time, efforts were made to get our market gardeners to grow nice succulent vegetables from English seed; but from want of sufficient encouragement or discrimination on the part of the public, the coarser and cheaper kinds raised from acclimatized seed soon resumed their old leading position in the markets.

4. The above points to the fact that there must be the prospect of a ready and remunerative sale before private enterprise can be enlisted on behalf of increased and improved Viticulture. It will not do to flood the markets with good grapes and find but few purchasers.

5. As regards

(1) What localities the experiments should be made in—

I would recommend Bangalore and Seringapatam alone in the first instance. It is true the vine would likely grow better at Chitaldroog, Goribidnur or Kolar, but in these places not only would the want of skilled labor and superintendence be felt, but probably a want of sufficient demand for the fruit also.

6. As regards

(2) What varieties of the vine should be obtained, and from where—

I have to observe that Mr. Cameron, the Superintendent of the Lal-Bagh, has been directed to place himself in correspondence with Sir F. Von Mueller, the Government Botanist of Victoria, and with other experts, with the view of obtaining collections of the most approved varieties of grape vine from different countries. For the present, these will consist of (*a*) varieties affording the best fruit for dessert, and (*b*) kinds which are recommended for the preparation of wines. Of the latter class, the Kashmir Government have already established the American varieties named in the margin, and it may be possible to obtain rooted plants or cuttings from that source. But in any case, it will be necessary for this Darbar to place a sum of Rs. 1,500 at my disposal for the importation of new vines from different countries, as the cost of freight and loss by exchange is heavy in such transactions.

Rupestus Gauay | Vialla Riparia | York Madeira Othello | Noah Clinton | Pincau Cornucopia | Riparia Martin

7. As regards

(3) What facilities and concessions are recommended to enlist private enterprise on behalf of this desirable branch of industry—

I would beg to state that I consider that no concessions are necessary. The facilities would be gratis grants of cuttings or rooted layers and cuttings of such of the new varieties as are proved to bear well and yield the best fruit.

8. I am of opinion, however, that the best stimulant to private growers would be to institute handsome money prizes for the best baskets of grapes as regards size, bloom and flavor. Experience has shown that at the two flower, fruit and vegetable shows held at the Lal-Bagh yearly, the competition for really insignificant money prizes is very keen and attended with the best results. Under the incentive of good prizes a similar show is the feature of the Lal-Bagh shows, it is fairly certain that grape growing will receive a great impetus and the bunches will be thinned and otherwise attended to with as much skill as the native gardeners bring to bear on their peaches, apples and strawberries, &c.

9. If the results of these experiments are favorable, then extension into the interior of the Province will follow as a natural sequence and be but a matter of time.

10. With reference to Government Proceedings, dated 25th September 1893, No. 6215-23—G. 1412, communicating a letter from Mr. Thurston, Officiating Reporter on Economic Products to the Government of India, to the Resident in Mysore, on the same subject as treated of in this letter, I have the honor to state that as regards edible grapes, I believe, there is sufficient local knowledge to do all that is required; but to grow grapes profitably for the manufacture of wine would certainly require the services of an expert. Places would have to be chosen where there is shelter from wind and few or no white-ants. Irrigating the plants would be expensive, and the variations of temperature are so considerable in Mysore that it is apprehended there would be difficulties in the matter of fermentation, &c. In my opinion it would be preferable to attend more to the extension of date palm culture, the juice of which is drank largely by the bulk of the population and is capable also of being manufactured into sugar, than to attempt to make wine. At any rate, I think the question of wine manufacture may stand over pending further experiments in improved and systematic culture of the table grape.

11. Finally, I beg to state that I may be in error as regards the capabilities of Mysore in this matter of Viticulture. It is true that hitherto there has not been much local or serious enterprise in this direction; but this fact is not opposed to the conclusion that, under skilful and systematic culture in suitable localities, excellent results may be obtained.

No. 18340-42—G. 4049, DATED, BANGALORE, 25TH APRIL 1894.

ORDER THEREON.—The Government of His Highness the Maharaja generally approve of the suggestions contained in Mr. Ricketts' letter cited above, paras 5 to 9 inclusive, as well as his action in directing Mr. Cameron to obtain collections of the most approved varieties of grape vine from different countries through the assistance of Sir F. Von Mueller and other experts. A sum of Rs. 1,500 will be placed at Mr. Ricketts' disposal to enable him to open experimental farms of Viticulture at Seringapatam and Bangalore and to import new vines from different countries for the purpose.

2. In para 10 of his letter, Mr. Ricketts proposes that the question of wine manufacture may stand over pending experiments in improved and systematic culture of the table grape. But, meanwhile, experiments should be made in the cultivation of the wine varieties of grapes also.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Muzarayi),—dated 14th April 1894.

MUZARAYI.

No. 1057-65½—Muz. F. 90-93, dated, Bangalore, 14th April 1894.

Order.—The Government observe that the establishments in most of the temples in the Province consist of unnecessarily large numbers of extremely ill-paid servants. It is therefore intended to improve the tone of the temple service in general, by gradually abolishing certain superfluous offices as vacancies occur and increasing the emoluments of others from the savings rendered available thereby.

2. With a view to give effect to the above, the Deputy Commissioners of Districts are requested to report every vacancy in the establishments of temples under Muzarayi management caused by the death of the existing incumbents or otherwise to Government in the Muzarayi Department, who, after carefully considering the circumstances of each individual case, will pass orders regarding the filling up or absorbing of the vacancy in question.

3. But, however, in cases where the temple services are likely to suffer by a delay in filling up the vacancies caused in any of the offices noted in the margin, the Deputy Commissioners may temporarily fill up the same and report the nominations for the orders of Government.

PUBLIC WORKS.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Public Works),—dated 18th April 1894.

READ :—

Docket No. 896—117 of the 2nd April 1894 from the Sanitary Engineer with the Government of Mysore, submitting for orders a printed copy of the Proceedings of a meeting of the Shimoga Town Municipal Board, held on the 27th January 1894, showing that the members of the Board differ among themselves as regards the cost of the drainage scheme being borne by the Municipality.

No. 1969-71—344-6, DATED, BANGALORE, 18TH APRIL 1894.

ORDER THEREON.—In regard to the Drainage Scheme proposed for the town of Shimoga, the Municipal Board of that town in the Proceedings of its meeting of the 27th January 1894 (para 8) records the opinions of its members as to how the cost of the scheme should be met. These opinions are so inconclusive that the Government cannot allow the valuable time of the Sanitary Engineer to be wasted in drawing up an elaborate revised scheme of drainage which, owing to want of funds, might possibly never be carried out.

2. Some members of the Board apparently entertain very erroneous notions as to the duty of the Municipality in the matter, and they make an unauthorized reference to what they style the "repeated promises" of the Government. The Government, when appealed to by the inhabitants of Shimoga both at the meetings of the Representative Assembly and on other occasions, for the early improvement of the drainage of Shimoga, informed them that the matter was already engaging attention and would soon be taken in hand. This assurance did not mean that the Government were not going to get the local Municipality to do the work or to pay for it, or that the Government were going to bear the whole cost. The Government have always been willing to contribute liberally towards the work, but the local Municipality is bound to bear a substantial portion of the burden. The Government have already carried out at its own cost integral parts of the drainage scheme, namely, the filling up of the Kumbargundi (Rs. 18,200) and filling up of gundis in backyards (Rs. 6,700). The Government now set apart annually a liberal sum for the sanitation of all the larger towns of the Province. Shimoga will get its own proper share of this sum as grant-in-aid, but must find the remainder from its own Municipal revenue. If the Municipality can raise only Rs. 16,000 but spend Rs. 18,000 per annum (as in 1894-95), it is of course not possible for them to have any complete drainage scheme; but if they are in a position to calculate upon an annual surplus of from Rs. 3,000 to Rs. 4,000, the Government will be able to make such financial arrangements as will permit of the early completion of a proper drainage scheme. What the scheme is to be of course depends upon the funds which can be made available for the purpose.
